

CopyrightX:UCT

Weekly sessions via remote lecturing

Held on Wednesday evenings

THE COURSE AT A GLANCE

Join this free course which explores the current law of copyright in South Africa; the impact of that law on art, entertainment, and industry; and the ongoing debates concerning how the law should be reformed

CopyrightX:UCT is a member of the CopyrightX Community, a network of affiliated courses offered by several universities and other institutions each year, originally developed by Harvard Law School. CopyrightX:UCT consists of the Harvard pre-recorded lectures, accompanied by reading materials relating to U.S. and South African copyright law. Weekly online seminars will more closely analyse South African copyright law. This course will be of interest to anyone concerned or faced with copyright law, including librarians, artists, publishers or law students.
