

CORPORATE SOCIAL RESPONSIBILITY, CITIZENSHIP AND BUSINESS SUSTAINABILITY

8 hours remote lecturing

Held over 2 days

THE COURSE AT A GLANCE

Corporate social responsibility and sustainability are popular concepts, but they are often misconstrued and poorly implemented.

This course blends theory and practical insights with an understanding of the complementary concepts of CSR and sustainability. An excellent opportunity for participants to understand how these constructs are conceptualised and put into practice within African countries and in major international regulatory dialogues across the world.

Participants will gain a better understanding of the nuances concerning these concepts, and will not only appreciate the extent of their rights and responsibilities in CSR-related legislations in South Africa and beyond, but will also be better able to comply with such CSR requirements within the jurisdiction.
