

## Legal design thinking

**This webinar takes a look at legal design thinking as a basic but necessary framework in fostering innovation in the legal industry.**

“Sometimes it takes a pandemic of magnificent proportions to force us to make changes and be innovative in the way that we do things to survive. The impact of Covid-19 on the legal profession is yet to be fully measured and assessed but, what is clear, is that many have been forced to look at new ways to do what we have to do and sometimes perform legal tasks differently.” - Leah Molatseli, 2020.
