

# CISCA AND HEDGE FUND REGULATIONS

6 hours remote lecturing

Held over 3 days

## THE COURSE AT A GLANCE

### Need to learn more about CISCA or understand how it relates to hedge funds?

Hedge funds were declared collective investment schemes under the Collective Investment Schemes Control Act, 2002 (CISCA) in 2015. This course offers a big picture overview of both CISCA and the hedge fund regulations, from someone who has worked as a legal advisor in both industries. Although it is law focused, the course reflects a deep understanding of industry practice and is highly interactive and practical, promoting better compliance with the new regulatory regime. It also offers a glimpse into the future legal developments that will impact the industry, including an introduction to the twin peaks regulatory regime and the CoFI Bill.
