

## UCT Law @ work

Professional Development Project

# Mergers and acquisitions - a compass for finding your way in the M & A legal terrain.

Opinion is that amid the current market uncertainty and dislocation, there are a number of opportunities for M&A to play out in the near future.

Mergers and acquisitions (M&A's) involving privately held companies entail a number of key legal, business, human resources, intellectual property, and financial issues. In order to successfully navigate the sale, acquisition or merger of a company, and to advise clients, all legal professionals, in practice or corporate counsel, must understand the dynamics and issues that frequently arise in the legal landscape when dealing with M&A's. This course is an in-depth guide for lawyers on M&A's.

16  
HOUR
